Hi there,
Grant here, Customer Success Manager at Particle.
I saw your checkout for the Particle Face Cream was still pending, and I wanted to proactively do something about it.

Usually, my team just sends a standard reminder when an order is left behind. But I know trying a new grooming brand online is a big decision, and I want to make it an absolute no-brainer for you.

So, I just went into our system and manually authorized a 10% welcome discount for your first order.

You can use the code [WELCOME10](#) at checkout to drop the final price.

Combine that with our 30-day money-back guarantee, and there is literally zero risk to giving us a shot today.

I've left your cart open and ready to go. You can resume your checkout and apply the code [right here](#)

Let me know what you think of the results once you try it!

Best,
Grant Harrison
